

Children Receiving Subsidies in Oregon

For reporting period: April 1, 2018 to June 30, 2018

An important goal of Oregon's Early Learning System is to increase access to high quality care and education for all children in Oregon. This includes children from low income families and across all racial and ethnic backgrounds. The following information depicts data about children receiving child care subsidies and is the only available data about children in child care.

Children in Subsidized Care

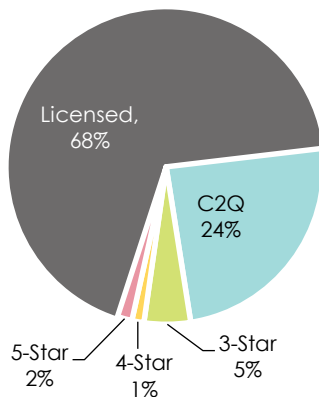

Subsidies in Oregon

Current data shows that children from low income families are accessing quality child care and that those children are from diverse racial and ethnic backgrounds. 32% of children receiving subsidies are in QRIS participating programs (Commitment to Quality (C2Q) to 5-Star). 43% of those are from racial and/or ethnic groups, which are considered minorities, as compared to minorities in subsidy across all licensed programs (43%).

Oregon's QRIS Participation

The table and chart below show race and ethnicity of children receiving subsidies in licensed programs and Oregon's QRIS participating programs according to designation and rating.

	Licensed (non QRIS)	C2Q	3-Star	4-Star	5-Star	Total*
African American	955	318	32	*	18	1323
Asian	80	17	*	*	*	97
+Hispanic or Latinx	2098	874	115	19	42	3148
Native American/Alaskan Native	118	64	*	*	*	182
Native Hawaiian/Pacific Islander	20	12	*	*	*	32
Two or More	260	74	23	*	*	357
White	4634	1562	392	116	106	6810
Total	8165	2921	562	135	166	11949

+Indicated the ethnicity of Hispanic and any combination of race.

*Stars represent 6 or less children and count as "0" in the report. Actual totals may be more than shown.

All data from Oregon's Department of Human Services for reporting period April 1, 2018 to June 30, 2018. Reported on October 17, 2019.

+ Indicated the ethnicity of Hispanic and any combination of race.

Information is about children 11 years and younger receiving child care subsidy.

Because of the nature of child care in Oregon these reported data are the most reliable source of demographic information about children in care, with the acknowledgement that this information is self-reported and optional.

Because of the nature of child care in Oregon these reported data are the most reliable source of demographic information about children in care, with the acknowledgement that this information is self-reported and optional.

Children & Families Receiving Child Care Subsidies in Sherman County

For reporting period: April 1, 2018 to June 30, 2018

An important goal of Oregon's Early Learning System is to increase access to high quality care and education for all children in Oregon. This includes children from low income families and across all racial and ethnic backgrounds. The following information depicts data about children receiving child care subsidies and is the only available data about children in child care.

No data is being reported for this county because the small number of children on subsidy and/or in QRIS participating programs would allow for possible identification of an individual child.

All data from Oregon's Department of Human Services for reporting period April 1, 2018 to June 30, 2018. Reported on October 17, 2019.

+ Indicated the ethnicity of Hispanic and any combination of race.

Information is about children 11 years and younger receiving child care subsidy.

Because of the nature of child care in Oregon these reported data are the most reliable source of demographic information about children in care, with the acknowledgement that this information is self-reported and optional.
