# Welcome to Career Bridge and the Where Are You Going? guide

Choosing a career is one of life's big decisions. Will your career excite you and fulfill you? Will it pay enough to support you and your family? Will it give you opportunities to grow?

This guide starts you on a personal journey of career exploration.

- Do the suggested exercises.
- Circle your favorite jobs and schools.
- Make notes.

## Explore Career Bridge

Get details on nearly 6,000 education and training programs at Washington's schools, colleges and universities with **CareerBridge.wa.gov**. This free, state website also lets you search hundreds of apprenticeships that provide a paycheck while you learn a high-wage skill.

## Follow these Steps

- Step 1** Explore yourself. Reflect on what you have done in your life, what you do well, what you like, and what you don't.
- Step 2** Discover your interests with the Career Clusters Quiz. This simple exercise will help you look at your interests in a way that connects you to career choices.
- Step 3** Narrow your focus on specific career fields. See how sorting careers by topic can help you design a career path that allows for increasing responsibilities and income.
- Step 4** Research occupations, learn what jobs pay—and whether they're growing. This guide and **CareerBridge.wa.gov** organize education and training by occupation, allowing you to search for careers that meet your personal and financial needs. When data is available, Career Bridge also provides "performance results" so you can see the percentage of students who completed an education program, if they got a job and how much they were paid on average.
- Step 5** If you are in middle school or high school, review these suggestions to better position yourself when you graduate.
- Step 6** Look over these options for after high school graduation, including learning while you work through apprenticeships or service in the military.
- Step 7** Reduce the time you need to spend in the classroom. This step shows how you might get college credit for previous learning.
- Step 8** This step and the Pay for School area of **CareerBridge.wa.gov** will walk you through your options for paying for your education.
- Step 9** Whether you're looking for part-time work while you're in school or climbing the first rung of your career ladder, you'll need to be able to present yourself to an employer. This step covers the essentials of resume preparation and job interviews that will help you land the job.

These nine steps will help you create a career plan that gets you where you want to go!

Funding for this publication was provided in part by the federal Carl D. Perkins Career and Technical Education Act of 2006.

## Exploring your Interests

How do you pick a career that's right for you? How do you avoid a job you won't like? How do you prepare for one you will like? There are no easy answers to these questions, and it's natural to feel overwhelmed. It helps to reflect on what you like to do, and what you're good at.

### Know Yourself

Satisfaction and success depend on how well your skills and interests match the career you choose. When you're doing something that suits you, you're likely to excel. When there's a mismatch, it can lead to frustration and missed opportunities.

Get started by asking questions about yourself, using the six broad areas below. Take your time as you consider your answers. You may even want to take notes. Your responses will be helpful as you move through this guide and explore careers.

**1. Interests**—Do you like working with people...or numbers...or objects? Do you like to be in charge or would you rather report to someone else? Are you scientific or technical? Do you like detail work? Do you enjoy expressing yourself through art or music?

**2. Talents**—Do you have good writing and speaking skills? How about spatial perception and an understanding of how things fit together, or the ability to work with your hands? Are you good with numbers? What are your special talents?

**3. Personality**—Do you like to work under stress or under frequent deadlines? Do you like to do a variety of things or focus on one area? Are you generally upbeat and outgoing or more reflective and quiet.

**4. Education**—Are you interested in academics or are you more of a hands-on learner? Do you enjoy listening to lectures or would you rather read? Do you like to put things together and take them apart? How do you like to learn?

**5. Working Conditions**—Can you handle a noisy workplace or an intensely quiet one? Do you prefer to sit or stand? Do you like working indoors or outdoors? Could you work in a job where there is a risk of injury? Can you work in a health care setting, where people are sick or hurt?

**6. Pay and Work Hours**—How much money would you like to earn? Are you willing to travel? Are you willing to work the night shift, weekends or overtime? Are you comfortable in a competitive, commission-only job? Or do you prefer a steady paycheck?

### Warmed up? Write it down.

Now take a quick inventory of who you are and what you like to do. Feel free to go beyond the numbered spaces and add as many things as you like. Some questions may not apply to you. Only answer questions that relate to your situation—whether you're in school, are looking to change jobs or are currently unemployed and looking for work.

# WHO YOU ARE

## A. List three things (or more) you like to do.

1. \_\_\_\_\_
2. \_\_\_\_\_
3. \_\_\_\_\_

## B. List careers that fit your hobbies.

1. \_\_\_\_\_
2. \_\_\_\_\_
3. \_\_\_\_\_

## C. Changing jobs? Why?

1. \_\_\_\_\_
2. \_\_\_\_\_

## D. Got a job? What do you wish was different?

1. \_\_\_\_\_
2. \_\_\_\_\_

## E. List three jobs you see yourself doing.

1. \_\_\_\_\_
2. \_\_\_\_\_
3. \_\_\_\_\_

## F. Are you limited in any way by your current status or condition, such as a disability or lack of transportation? (See pages 60-61 for more information on disabilities.) What are some ways to overcome these hurdles?

1. \_\_\_\_\_
2. \_\_\_\_\_

## EDUCATION—Which jobs are you prepared for?

Whether you're in school or out of school, your education has a direct connection to the types of jobs you're qualified to do. Think about which jobs this education has prepared you for. Don't be limited by the number of lines. Enter as many jobs that come to mind for each education level.

### A. High school diploma or GED

1. \_\_\_\_\_
2. \_\_\_\_\_

### B. Community or technical college

1. \_\_\_\_\_
2. \_\_\_\_\_

### C. University or four-year college

1. \_\_\_\_\_
2. \_\_\_\_\_

### D. Other training or special courses of interest

1. \_\_\_\_\_
2. \_\_\_\_\_

# WORK EXPERIENCE

Fill out a worksheet like the one below for each job you have held. Be sure to include part-time and volunteer work. This will help when creating a resume, and researching the next job you hope to land.

Employer's name: \_\_\_\_\_

Employer's address: \_\_\_\_\_

## Supervisor:

Dates worked from \_\_\_\_\_ to \_\_\_\_\_

Reason you left this job \_\_\_\_\_

Equipment, machines or software you've used \_\_\_\_\_

Title of job \_\_\_\_\_

## Tasks you performed

1. \_\_\_\_\_ 4. \_\_\_\_\_

2. \_\_\_\_\_ 5. \_\_\_\_\_

3. \_\_\_\_\_ 6. \_\_\_\_\_

Now, go back and prioritize each task in order of the ones you liked the most.

1. \_\_\_\_\_ 4. \_\_\_\_\_

2. \_\_\_\_\_ 5. \_\_\_\_\_

3. \_\_\_\_\_ 6. \_\_\_\_\_

Which task challenged you the most? How satisfying was the job? Would you like another one like this?

## Now what?

The next exercise will help you target specific career areas. But save these notes. They will serve as a good starting point for writing a resume, college admission essays and letters of interest to employers.

# Career Clusters Quiz

**Directions:** Check the items in each box that best describe you. Check as many as you like. Add up the number in each box and see which three boxes have the highest numbers. Then find the corresponding Career Clusters on pages 14-45 to see which groups of related careers to explore.

<p><b>1.</b></p>	<p><b>What I like to do:</b></p> <ul style="list-style-type: none"> <li><input type="checkbox"/> Learn how things grow and stay alive.</li> <li><input type="checkbox"/> Make the best use of the earth's natural resources.</li> <li><input type="checkbox"/> Hunt and/or fish.</li> <li><input type="checkbox"/> Protect the environment.</li> <li><input type="checkbox"/> Be outdoors in all kinds of weather.</li> <li><input type="checkbox"/> Plan, budget, and keep records.</li> <li><input type="checkbox"/> Operate machines and keep them in good repair.</li> </ul>	<p><b>My personal qualities</b></p> <ul style="list-style-type: none"> <li><input type="checkbox"/> Self-reliant</li> <li><input type="checkbox"/> Nature lover</li> <li><input type="checkbox"/> Physically active</li> <li><input type="checkbox"/> Planner</li> <li><input type="checkbox"/> Creative problem solver</li> </ul>	<p><b>School subjects I like:</b></p> <ul style="list-style-type: none"> <li><input type="checkbox"/> Math</li> <li><input type="checkbox"/> Life Sciences</li> <li><input type="checkbox"/> Earth Sciences</li> <li><input type="checkbox"/> Chemistry</li> <li><input type="checkbox"/> Agriculture</li> </ul>	<p><b>Total number checked in Box 1</b></p> <div style="border: 1px solid black; width: 60px; height: 60px; margin: 0 auto;"></div>

Tally up your scores. What are your top three areas? Career clusters allow you to view related careers that call for similar skills and interests, helping you explore different occupations, even as you narrow your search for a particular career. Turn to pages 9-12 to find the career cluster that corresponds with the box number.

# Career Clusters Focus Your Search

Career Clusters and their related career pathways help you narrow your career search—without necessarily narrowing your options. With each step in your education, you focus more on the specific skills needed for a particular job. Many pathways connect entry-level jobs to higher-level positions, allowing you to advance your career and get better paying jobs in the same career cluster as you continue your education.

With clusters, you're able to view related careers within a larger field. So, for example, you might be interested in business, investment planning and insurance services. All three career pathways fall within the Finance Career Cluster and rely on the same basic level of education.

Each career cluster gives you the flexibility to choose between career pathways as you move forward with your education plan. Each pathway provides access to many different types of jobs.

Explore these 16 Career Clusters:

---

## 1. Agriculture, Food, and Natural Resources Career Cluster

Choose from seven pathways for careers in:

- Animal Systems.
- Agribusiness Systems.
- Environmental Service Systems.
- Food Products and Processing Systems.
- Natural Resources Systems.
- Plant Systems.
- Power, Structural, and Technical Systems.

Check out sample careers on Pages 14-15.

---

## 2. Architecture and Construction Career Cluster

Choose from three pathways for careers in:

- Construction.
- Design/Pre-construction.
- Maintenance/Operations.

Check out sample careers on Pages 16-17.

---

## 3. Arts, Audio/Video Technology, and Communications Career Cluster

Choose from six pathways for careers in:

- Audio/Video Techniques and Film.
- Journalism and Broadcasting.
- Performing Arts.
- Printing Technology.
- Telecommunications.
- Visual Arts.

Check out sample careers on Pages 18-19.

---

#### 4. Business, Management and Administration Career Cluster

Choose from five pathways for careers in:

- Administrative Support.
- Business Information Management.
- Operations Management.
- Human Resources Management.
- General Management.

Check out sample careers on Pages 20-21.

---

#### 5. Education and Training Career Cluster

Choose from three pathways for careers in:

- Teaching/Training.
- Administration and Administrative Support.
- Professional Support Services.

Check out sample careers on Pages 22-23.

---

#### 6. Finance Career Cluster

Choose from five pathways for careers in:

- Banking Services.
- Accounting.
- Business Finance.
- Securities and Investments.
- Insurance.

Check out sample careers on Pages 24-25.

---

#### 7. Government and Public Administration Career Cluster

Choose from seven pathways for careers in:

- Foreign Service.
- Governance.
- National Security.
- Planning.
- Public Management and Administration.
- Regulation.
- Revenue and Taxation.

Check out sample careers on Pages 26-27.

---

#### 8. Health Science Career Cluster

Choose from five pathways for careers in:

- Biotechnology Research and Development.
- Diagnostic Services.
- Health Informatics.
- Support Services.
- Therapeutic Services.

Check out sample careers on Pages 28-29.

## 9. Hospitality and Tourism Career Cluster

Choose from four pathways for careers in:

- Lodging.
- Recreation, Amusements, and Attractions.
- Restaurant and Food/Beverage Services.
- Travel and Tourism.

Check out sample careers on Pages 30-31.

---

## 10. Human Services Career Cluster

Choose from five pathways for careers in:

- Consumer Services.
- Counseling and Mental Health Services.
- Early Childhood Development and Services.
- Family and Community Services.
- Personal Care Services.

Check out sample careers on Pages 32-33.

---

## 11. Information Technology (IT) Career Cluster

Choose from four pathways for careers in:

- Information Support and Services.
- Web and Digital Communications.
- Network Systems.
- Programming and Software Development.

Check out sample careers on Pages 34-35.

---

## 12. Law, Public Safety, Corrections, and Security Career Cluster

Choose from five pathways for careers in:

- Correction Services.
- Emergency and Fire Management Services.
- Law Enforcement Services.
- Legal Services.
- Security and Protective Services.

Check out sample careers on Pages 36-37.

---

### 13. Manufacturing Career Cluster

Choose from six pathways for careers in:

- Production.
- Manufacturing Production Process Development.
- Maintenance, Installation, and Repair.
- Quality Assurance.
- Logistics and Inventory Control.
- Health, Safety, and Environmental Assurance.

Check out sample careers on Pages 38-39.

---

### 14. Marketing, Sales and Service Career Cluster

Choose from five pathways for careers in:

- Merchandising.
- Marketing Management.
- Marketing Communications.
- Marketing Research.
- Professional Sales .

Check out sample careers on Pages 40-41.

---

### 15. Science, Technology, Engineering, and Mathematics (STEM) Career Cluster

Choose from two pathways for careers in:

- Engineering and Technology.
- Science and Math.

Check out sample careers on Pages 42-43.

---

### 16. Transportation, Distribution and Logistics Career Cluster

Choose from seven pathways for careers in:

- Facility and Mobile Equipment Maintenance.
- Health, Safety, and Environmental Management.
- Logistics Planning and Management Services.
- Sales and Services.
- Transportation Operations.
- Transportation Systems/Infrastructure Planning, Management, and Regulation.
- Warehousing and Distribution Center Operations.

Check out sample careers on Pages 44-45.

# Career Search

After taking the Career Clusters Quiz, review which Career Clusters ranked high. Then turn to the pages of this booklet that feature those same Career Clusters. As you learn more about the type of work you would like to do, go online and use **CareerBridge.wa.gov** to explore the full range of occupations, including those not included in this booklet.

The guide below will help you understand the career search tables that follow.

**Occupational Description:** Basic job information.

**Annual Wages:** What you can expect to earn each year, working full time. Wages vary depending on where you live and are based on experience. Source: Washington Employment Security Department’s Labor Market and Economic Analysis unit.

**Outlook:** Some jobs are in demand; others are not. The outlook shows the number of Washington residents employed in a particular occupation, the expected annual growth rate in jobs for that occupation based on a five-year (2010-15) projection, and the number of net vacancies or job openings expected per year (both new jobs and vacancies in existing jobs created by retirements). Source: Washington Employment Security Department.

Negative growth rates may still show openings because of retirement and other factors.

**Education:** This column lists the most common training required or recommended to enter a given occupation. Get specific details about 6,000 education programs at **CareerBridge.wa.gov**

Occupational Description	Annual Wages	Outlook	Education (Most common training requirements.)
<b>Farmers, Ranchers, and Other Agricultural Managers</b> plan and direct the management of farms, ranches, nurseries and timber tracts.	Entry: \$55,425 Average: \$81,173	464 Employed 0.3% Growth 10 Openings/year	High School Diploma

# Career Cluster 1

## Agriculture, Food & Natural Resources

Occupational Description	Annual Wages	Outlook	Education (Most common training requirements.)
<b>Agricultural Equipment Operators</b> drive and control farm equipment to till soil, and plant and harvest crops.	Entry: \$22,157 Average: \$28,691	1,008 Employed 0.8% Growth 42 Openings/year	High School Diploma
<b>Agricultural Inspectors</b> inspect agricultural commodities, processing equipment, and facilities.	Entry: \$28,737 Average: \$39,992	646 Employed 0.1% Growth 17 Openings/year	Associate's Degree or Technical Certificate
<b>Conservation Scientists</b> manage and help protect soil and rangelands.	Entry: \$46,022 Average: \$65,125	858 Employed -0.1% Growth 6 Openings/year	Bachelor's Degree
<b>Farmers, Ranchers, and Other Agricultural Managers</b> plan and direct the management of farms, ranches, nurseries and timber tracts.	Entry: \$55,425 Average: \$81,173	464 Employed 0.3% Growth 10 Openings/year	High School Diploma
<b>Fish and Game Wardens</b> prevent fish and game law violations.	Entry: \$48,518 Average: \$60,144	112 Employed -0.2% Growth 2 Openings/year	Bachelor's Degree
<b>Fishers and Related Fishing Workers</b> catch and gather fish from rivers, lakes, or oceans.	Entry: \$28,532 Average: \$45,352	4,806 Employed -1.5% Growth 68 Openings/year	On-the-Job Training
<b>Food Scientists and Technologists</b> determine the best ways to process, package, preserve, store, and distribute food.	Entry: \$35,224 Average: \$57,101	287 Employed 0.8% Growth 14 Openings/year	Bachelor's Degree
<b>Foresters</b> manage forests for economic, recreational, and conservation purposes.	Entry: \$45,943 Average: \$57,430	563 Employed 0.1% Growth 5 Openings/year	Bachelor's Degree
<b>Landscape Architects</b> design land areas for projects such as parks and other recreational facilities.	Entry: \$43,823 Average: \$62,503	959 Employed 2.1% Growth 39 Openings/year	Bachelor's Degree

<b>Transportation Security Screeners</b> conduct screening of passengers, baggage, or cargo to ensure compliance with federal regulations.	Entry: \$30,531 Average: \$37,493	1,119 Employed 0.1% Growth 10 Openings/year	High School Diploma

# Career Cluster 13

## Manufacturing

Occupational Description	Annual Wages	Outlook	Education (Most common training requirements.)
<b>Aircraft Mechanics and Service Technicians</b> diagnose, adjust, repair, or overhaul aircraft engines.	Entry: \$40,460 Average: \$58,285	5,232 Employed 1.8% Growth 254 Openings/year	Associate's Degree or Technical Certificate
<b>Aircraft Structure, Surfaces, Rigging, and Systems Assemblers</b> assemble, fit, fasten, and install parts of airplanes, space vehicles, or missiles.	Entry: \$36,507 Average: \$53,336	11,594 Employed 3.7% Growth 701 Openings/year	High School Diploma
<b>Boilermakers</b> build, install, and repair boilers, and also work on other large containers of liquids and gases.	Entry: \$38,200 Average: \$49,331	449 Employed 1.9% Growth 28 Openings/year	High School Diploma
<b>Computer-Controlled Machine Tool Operators</b> operate computer-controlled machines or robots.	Entry: \$29,508 Average: \$45,293	2,823 Employed 3.7% Growth 168 Openings/year	High School Diploma
<b>Dental Laboratory Technicians</b> make and repair dentures, crowns and bridges.	Entry: \$29,684 Average: \$43,872	1,271 Employed 1.3% Growth 57 Openings/year	High School Diploma
<b>Electrical and Electronic Engineering Technicians</b> design, build, repair, calibrate, and modify electrical components, circuitry, and controls.	Entry: \$44,230 Average: \$63,182	2,618 Employed 1.9% Growth 103 Openings/year	Associate's Degree or Technical Certificate
<b>Extruding and Drawing Machine Setters, Operators, and Tenders</b> operate machines to extrude or draw thermoplastic or metal materials.	Entry: \$24,565 Average: \$37,362	924 Employed 1.9% Growth 36 Openings/year	High School Diploma
<b>Industrial Engineers</b> develop systems to manage production processes, including human work factors, quality control, and inventory control.	Entry: \$66,313 Average: \$89,482	5,275 Employed 2.9% Growth 275 Openings/year	Bachelor's Degree
<b>Industrial Production Managers</b> plan and direct the work and resources necessary to manufacture products.	Entry: \$62,137 Average: \$100,640	2,894 Employed 2.0% Growth 123 Openings/year	Associate's Degree or Technical Certificate

## Career Cluster 13, Manufacturing

Occupational Description	Annual Wages	Outlook	Education (Most common training requirements.)
<b>Industrial Truck and Tractor Operators</b> use trucks or tractors equipped to move materials around.	Entry: \$24,564 Average: \$37,704	11,035 Employed 1.5% Growth 482 Openings/year	High School Diploma
<b>Locksmiths and Safe Repairers</b> install and repair locks and safes.	Entry: \$25,643 Average: \$40,899	616 Employed 1.5% Growth 20 Openings/year	High School Diploma
<b>Machinists</b> use machine tools to produce precision metal parts.	Entry: \$32,033 Average: \$49,942	4,824 Employed 4.1% Growth 309 Openings/year	Associate's Degree or Technical Certificate
<b>Millwrights</b> install, dismantle, or move machinery and heavy equipment.	Entry: \$50,605 Average: \$68,165	1,644 Employed 1.7% Growth 65 Openings/year	Associate's Degree or Technical Certificate
<b>Molding, Coremaking, and Casting Machine Setters, Operators, and Tenders</b> set up, operate, or tend metal or plastic molding, casting, or core-making machines.	Entry: \$24,337 Average: \$36,134	1,060 Employed 2.4% Growth 45 Openings/year	High School Diploma
<b>Telecommunications Equipment Installers and Repairers</b> fix telephone, cable, Internet, and other communications equipment.	Entry: \$38,045 Average: \$57,294	4,233 Employed 0.8% Growth 109 Openings/year	Associate's Degree or Technical Certificate
<b>Welders, Cutters, Solderers, and Brazers</b> use heat to permanently join pieces of metal.	Entry: \$32,754 Average: \$45,933	5,693 Employed 3.3% Growth 363 Openings/year	Associate's Degree or Technical Certificate
<b>Wind Turbine Service Technicians</b> assemble, maintain, and repair wind turbines used in energy generation.	Entry: \$44,669 Average: \$51,563	N/A Employed N/A Growth N/A Openings/year	Associate's Degree or Technical Certificate

# Career Cluster 14

## Marketing, Sales & Service

Occupational Description	Annual Wages	Outlook	Education (Most common training requirements.)
<b>Advertising and Promotions Managers</b> plan and direct ads for businesses.	Entry: \$64,797 Average: \$110,107	592 Employed 2.0% Growth 29 Openings/year	Bachelor's Degree
<b>Advertising Sales Agents</b> sell air time on radio and TV stations. They also sell page space in newspapers and magazines.	Entry: \$29,917 Average: \$65,228	3,568 Employed 1.9% Growth 179 Openings/year	Associate's Degree or Vocational Certificate
<b>Cashiers</b> ring up sales and receive payments for merchandise.	Entry: \$20,030 Average: \$26,437	61,857 Employed 0.9% Growth 4,226 Openings/year	On-the-Job Training
<b>Driver/Sales Workers</b> drive routes in an established territory and sell or deliver goods.	Entry: \$20,770 Average: \$32,222	6,427 Employed 1.2% Growth 199 Openings/year	On-the-Job Training
<b>Fashion Designers</b> design clothes and accessories for manufacture and sale.	Entry: \$32,891 Average: \$62,868	442 Employed 1.5% Growth 20 Openings/year	Associate's Degree or Vocational Certificate
<b>Floral Designers</b> cut and arrange flowers and plants.	Entry: \$22,260 Average: \$29,752	1,513 Employed 1.1% Growth 63 Openings/year	High School Diploma
<b>Interior Designers</b> plan and design spaces and furnish interiors.	Entry: \$33,299 Average: \$51,097	1,551 Employed 1.5% Growth 71 Openings/year	Bachelor's Degree
<b>Market Research Analysts and Marketing Specialists</b> research market conditions to determine potential sales of products or services.	Entry: \$41,809 Average: \$79,546	10,826 Employed 3.4% Growth 698 Openings/year	Bachelor's Degree
<b>Purchasing Agents</b> buy machinery, equipment, tools, parts, supplies, or services.	Entry: \$46,149 Average: \$69,316	8,970 Employed 1.7% Growth 396 Openings/year	Bachelor's Degree
<b>Real Estate Brokers</b> oversee real estate transactions, rent properties and arrange loans.	Entry: \$31,321 Average: \$68,735	1,538 Employed 0.0% Growth 33 Openings/year	Associate's Degree or Vocational Certificate
<b>Real Estate Sales Agents</b> help clients buy, sell, or lease land or property.	Entry: \$25,241 Average: \$50,547	6,329 Employed 0.1% Growth 144 Openings/year	Associate's Degree or Vocational Certificate

## Career Cluster 14, Marketing, Sales & Service

<b>Occupational Description</b>	<b>Annual Wages</b>	<b>Outlook</b>	<b>Education</b> (Most common training requirements.)
<b>Sales Managers</b> direct and coordinate the sales of goods and services for businesses.	Entry: \$71,305 Average: \$127,666	8,044 Employed 2.2% Growth 419 Openings/year	Bachelor's Degree
<b>Sales Representatives</b> sell goods for wholesalers or manufacturers to businesses or groups of individuals.	Entry: \$34,666 Average: \$67,708	31,542 Employed 2.0% Growth 1,417 Openings/year	Associate's Degree or Vocational Certificate
<b>Telemarketers</b> solicit donations or orders for goods or services over the telephone.	Entry: \$20,851 Average: \$25,178	5,807 Employed 3.0% Growth 333 Openings/year	High School Diploma
<b>Wholesale and Retail Buyers</b> purchase merchandise or commodities for resale to consumers at the wholesale or retail level.	Entry: \$35,835 Average: \$64,113	3,616 Employed 1.8% Growth 163 Openings/year	Associate's Degree or Vocational Certificate

# Career Cluster 15

## Science, Technology, Engineering, & Mathematics

Occupational Description	Annual Wages	Outlook	Education (Most common training requirements.)
<b>Aerospace Engineers</b> design, construct, and test parts for aircraft, spacecraft and weapons.	Entry: \$78,888 Average: \$103,634	7,643 Employed 1.8% Growth 296 Openings/year	Bachelor's Degree
<b>Anthropologists and Archeologists</b> study the origin, development, and behavior of human beings.	Entry: \$44,282 Average: \$62,295	229 Employed 1.6% Growth 13 Openings/year	Master's, PhD or Professional Degree
<b>Biological Technicians</b> assist biological and medical scientists in laboratories.	Entry: \$30,538 Average: \$42,422	3,506 Employed 1.4% Growth 176 Openings/year	Bachelor's Degree
<b>Biomedical Engineers</b> design new tools and devices to improve health care. They develop new ways to treat illness and disease.	Entry: \$49,099 Average: \$85,957	268 Employed 4.2% Growth 18 Openings/year	Bachelor's Degree
<b>Chemical Engineers</b> solve problems that involve using or making chemicals.	Entry: \$64,304 Average: \$95,419	432 Employed 2.0% Growth 22 Openings/year	Bachelor's Degree
<b>Chemists</b> search for new knowledge about chemicals.	Entry: \$50,485 Average: \$78,481	2,131 Employed 1.9% Growth 113 Openings/year	Bachelor's Degree
<b>Civil Engineers</b> plan and design roads, buildings, airports, tunnels, dams, bridges and water systems.	Entry: \$63,014 Average: \$86,087	13,470 Employed 1.6% Growth 476 Openings/year	Bachelor's Degree
<b>Electrical and Electronics Engineering Technicians</b> build, test, troubleshoot and repair electronic components.	Entry: \$44,230 Average: \$63,182	2,618 Employed 1.9% Growth 103 Openings/year	Associate's Degree or Technical Certificate
<b>Environmental Scientists and Specialists</b> study problems that affect the health of living things.	Entry: \$54,854 Average: \$82,105	4,193 Employed 1.6% Growth 188 Openings/year	Bachelor's Degree
<b>Epidemiologists</b> investigate and describe the cause and distribution of disease, disability, or health outcomes.	Entry: \$57,918 Average: \$76,539	266 Employed 1.4% Growth 5 Openings/year	Master's, PhD or Professional Degree
<b>Forensic Science Technicians</b> collect, identify, and analyze evidence related to criminal investigations.	Entry: \$38,159 Average: \$55,737	171 Employed -0.2% Growth 7 Openings/year	Bachelor's Degree

## Career Cluster 15, Science, Technology, Engineering, & Mathematics

Occupational Description	Annual Wages	Outlook	Education (Most common training requirements.)
<b>Geoscientists</b> study the composition, structure, and other physical aspects of the Earth.	Entry: \$54,090 Average: \$85,236	1,045 Employed 2.2% Growth 55 Openings/year	Bachelor's Degree
<b>Hydrologists</b> research the distribution, circulation, and physical properties of underground and surface waters.	Entry: \$64,360 Average: \$84,532	478 Employed 1.8% Growth 23 Openings/year	Bachelor's Degree
<b>Marine Engineers and Naval Architects</b> design, develop, and evaluate the operation of marine vessels, ship machinery, and related equipment.	Entry: \$64,975 Average: \$86,637	653 Employed 1.7% Growth 25 Openings/year	Bachelor's Degree
<b>Materials Scientists</b> research and study the structures and chemical properties of natural and synthetic or composite materials.	Entry: \$50,582 Average: \$84,207	417 Employed 2.6% Growth 25 Openings/year	Master's, PhD or Professional Degree
<b>Mechanical Engineers</b> oversee the design, construction, and testing of mechanical products and systems.	Entry: \$62,492 Average: \$91,550	5,389 Employed 2.6% Growth 324 Openings/year	Bachelor's Degree
<b>Medical Scientists</b> conduct research to find causes of and treatments for disease.	Entry: \$42,912 Average: \$77,516	4,725 Employed 2.7% Growth 155 Openings/year	Master's, PhD or Professional Degree
<b>Physicists</b> conduct research, develop theories, and devise methods to apply physical laws and theories.	Entry: \$70,906 Average: \$113,236	818 Employed 2.6% Growth 46 Openings/year	Master's, PhD or Professional Degree
<b>Sociologists</b> study human society and social behavior.	Entry: \$48,854 Average: \$63,526	180 Employed 0.8% Growth 6 Openings/year	Master's, PhD or Professional Degree
<b>Statisticians</b> collect, organize, and interpret numerical data.	Entry: \$48,903 Average: \$67,985	601 Employed 1.7% Growth 26 Openings/year	Master's, PhD or Professional Degree
<b>Surveying and Mapping Technicians</b> obtain data through surveying and mapping used for construction, mapmaking, boundary location, mining, or other purposes.	Entry: \$38,307 Average: \$50,754	1,200 Employed 1.8% Growth 46 Openings/year	Associate's Degree or Technical Certificate

# Career Cluster 16

## Transportation, Distribution, & Logistics

Occupational Description	Annual Wages	Outlook	Education (Most common training requirements.)
<b>Ambulance Drivers and Attendants</b> drive ambulances or assist in transporting sick and injured people.	Entry: \$21,901 Average: \$26,722	208 Employed 3.0% Growth 11 Openings/year	High School Diploma
<b>Automotive Body and Related Repairers</b> fix or replace damaged parts of vehicle bodies and frames.	Entry: \$27,842 Average: \$44,329	2,832 Employed 0.2% Growth 76 Openings/year	High School Diploma
<b>Automotive Service Technicians and Mechanics</b> diagnose, adjust, and repair cars and trucks.	Entry: \$27,530 Average: \$43,075	14,000 Employed 0.8% Growth 477 Openings/year	High School Diploma
<b>Avionics Technicians</b> install, inspect, and repair avionics equipment, such as radar, radio, navigation, and missile control systems.	Entry: \$49,373 Average: \$63,262	1,240 Employed 1.9% Growth 53 Openings/year	Associate's Degree or Technical Certificate
<b>Bus and Truck Mechanics and Diesel Engine Specialists</b> diagnose and repair buses and trucks, or maintain and repair any type of diesel engines.	Entry: \$39,241 Average: \$52,916	7,634 Employed 1.2% Growth 241 Openings/year	Associate's Degree or Technical Certificate
<b>Bus Drivers</b> transport people and assist passengers.	Entry: \$39,252 Average: \$49,520	7,989 Employed 0.0% Growth 141 Openings/year	High School Diploma
<b>Commercial Pilots</b> fly planes, helicopters, and air ambulances.	Entry: \$44,945 Average: \$82,731	1,027 Employed 1.7% Growth 56 Openings/year	Associate's Degree or Technical Certificate
<b>Dispatchers</b> schedule and dispatch workers, work crews, equipment, or service vehicles.	Entry: \$27,870 Average: \$43,203	3,720 Employed 1.8% Growth 131 Openings/year	High School Diploma
<b>Flight Attendants</b> keep airline passengers safe and comfortable.	Entry: \$31,961 Average: \$42,824	926 Employed 1.5% Growth 30 Openings/year	High School Diploma
<b>Heavy and Tractor-Trailer Truck Drivers</b> drive large trucks or tractor-trailers to transport materials.	Entry: \$31,337 Average: \$42,840	29,655 Employed 1.8% Growth 1,119 Openings/year	High School Diploma

## Career Cluster 16, Transportation, Distribution, & Logistics

Occupational Description	Annual Wages	Outlook	Education (Most common training requirements.)
<b>Laborers and Freight, Stock, and Material Movers</b> move freight, stock, or other materials.	Entry: \$21,386 Average: \$31,646	39,929 Employed 2.3% Growth 2,335 Openings/year	High School Diploma
<b>Logisticians</b> analyze and coordinate an organization's flow of resources, functions and operations.	Entry: \$61,203 Average: \$84,486	6,409 Employed 2.0% Growth 250 Openings/year	Bachelor's Degree
<b>Mobile Heavy Equipment Mechanics</b> diagnose and repair mechanical, hydraulic, and pneumatic equipment.	Entry: \$39,352 Average: \$55,039	3,293 Employed 1.5% Growth 131 Openings/year	Associate's Degree or Technical Certificate
<b>Recreational Vehicle Service Technicians</b> diagnose and repair recreational vehicles, including travel trailers	Entry: \$30,708 Average: \$42,193	318 Employed 1.6% Growth 13 Openings/year	High School Diploma
<b>Sailors and Marine Oilers</b> search for vessel obstructions and measure water depth, among other duties.	Entry: \$38,332 Average: \$47,579	1,652 Employed 0.7% Growth 74 Openings/year	High School Diploma
<b>Ship Engineers</b> supervise and coordinate activities of crew engaged in maintenance and operation of ship.	Entry: \$50,404 Average: \$78,847	577 Employed 1.0% Growth 28 Openings/year	Associate's Degree or Technical Certificate
<b>Shipping, Receiving, and Traffic Clerks</b> verify and maintain records on incoming and outgoing shipments.	Entry: \$24,362 Average: \$35,897	13,655 Employed 1.5% Growth 563 Openings/year	High School Diploma
<b>Taxi Drivers and Chauffeurs</b> transport passengers to and from their homes, workplaces, and other locations.	Entry: \$20,187 Average: \$27,225	5,222 Employed 1.8% Growth 153 Openings/year	On-the-Job Training
<b>Transportation Inspectors</b> enforce safety rules that protect people and cargo, and investigate accidents.	Entry: \$22,121 Average: \$49,108	1,004 Employed 0.8% Growth 33 Openings/year	Associate's Degree or Technical Certificate
<b>Transportation, Storage, and Distribution Managers</b> direct transportation, storage, or distribution activities.	Entry: \$60,185 Average: \$99,316	3,225 Employed 1.6% Growth 127 Openings/year	Bachelor's Degree

## Career Steps to Take in High School

If you're in high school or middle school, start preparing for your career today. Now is a good time to learn about jobs and career fields, and about what you like and don't like to do. The more you learn about the working world, the easier it is to know where you want to go.

### Try on a career with Career and Technical Education

Do you like welding or carpentry? Ever thought about becoming a nurse or pharmacist? Or maybe you like working with technology or enjoy sales and marketing. There are many jobs that you can explore while you're in high school through a Career and Technical Education (CTE) class.

CTE blends academic subjects like math and writing with jobs you'd actually like to do! So while you're learning about right angles or how to write a report, you're also able to create a business plan or use a miter saw to build something. And if you like what you're learning, you can dig deeper into the subject and in some cases earn both high school and college credits. Find out more about CTE Career Clusters at [www.k12.wa.us/CareerTechEd/Clusters/default.aspx](http://www.k12.wa.us/CareerTechEd/Clusters/default.aspx).

### CTE Career Clusters—One is right for you!

Find out which CTE classes are available at your high school or middle school. Are there classes in one of the career clusters that interest you?

### Skills Centers: Dig deeper into the career of your choice

Whether your passion is for cooking, learning to build robots or helping people get healthy, Skills Centers offer you a place to explore those interests in-depth. With Skills Centers, you get hands-on, specialized training in areas that range from culinary arts to robotics technology to nursing. Often, you're able to earn industry certification and college credits while you're still in high school. Plus you add value to your resume, for when you are looking for a job. There are 13 Skills Centers in Washington, serving more than 100 school districts. Many students go to a Skills Center as part of their school day, immersing themselves in career-focused classes, while attending high school the rest of the time. See which Skills Center serves your school district at: [www.washingtonskillscenters.org](http://www.washingtonskillscenters.org)

### Skills Centers

**Clark County Skills Center—Vancouver**  
(360) 604-1050

**New Market Skills Center—Tumwater**  
(360) 570-4500

**North Olympic Peninsula Skills Center—Port Angeles**  
(360) 565-1533

**Northwest Career and Technical Academy—Mount Vernon**  
(360) 848-0706

**Pierce County Skills Center—Puyallup**  
(253) 683-5950

**Puget Sound Skills Center—Burien**  
(206) 631-7300

**Sno-Isle Technical Skills Center—Everett**  
(425) 348-2220

**NEWTECH Skills Center—Spokane**  
(509) 354-7470

**Tri-Tech Skills Center—Kennewick**  
(509) 222-7300

**Washington Network for Innovative Careers—Kirkland**  
(425) 739-8400

**Wenatchee Valley Technical Skills Center—Wenatchee**  
(509) 662-8827

**West Sound Technical Skills Center—Bremerton**  
(360) 473-0550

**Yakima Valley Technical Skills Center—Yakima**  
(509) 573-5500

## Education and Training After High School

Whether it's a certificate or specific training that builds on your high school experience, the education you receive *after* high school will make a big difference in securing a career that grows with you and offers opportunities for higher pay.

To earn a living wage, you need to get through high school—and get at least a certificate representing one or more years of specific learning or training after high school.

For some people, an associate's degree at a community or technical college, or private career school, paves the way to a rewarding career. For others, it's joining the military, where you learn valuable skills and see the world, or it's becoming an apprentice and joining a high-paying, hands-on trade. For still others, it's working toward a four-year liberal arts degree that expands your knowledge of the arts and world, or even a doctoral degree in medicine, dentistry, veterinary medicine or law.

The biggest question before you start down the path toward any profession is: Do you know what you want to do? Be sure you figure that out first, at the beginning of this guide, by assessing your interests and abilities, then deciding on a Career Cluster. You'll want to have an idea of what career field you're interested in, before you invest time and money in additional education and training. (Turn to pages 2-13 to complete Steps 1-4.)

### Washington's Community and Technical Colleges

The state has 34 public community and technical colleges. They offer academic associate's degrees that transfer to a college or university, and certificates and degrees in career-specific areas such as health care, accounting, automotive technology and culinary arts. A growing number also offer applied bachelor's degree programs in a variety of subject areas. Chances are, there's a college near you. Go to [www.checkoutacollege.com](http://www.checkoutacollege.com)

---

*Learn how to fully explore your options using the guide's Career Cluster Tables on pages 14-45 or click on the searchable database at [CareerBridge.wa.gov](http://CareerBridge.wa.gov)*

---

### Four-Year Colleges and Universities

Washington is home to six public four-year colleges and universities, in addition to Western Governors University, which is entirely online. Many of the four-year universities also have branch campuses in select cities. See [www.wsac.wa.gov/CollegesAndUniversities](http://www.wsac.wa.gov/CollegesAndUniversities)

### Private Career Schools

Private career schools offer career-centered training in a variety of areas—from commercial truck driving to dental assisting. Students can earn certificates or degrees. Find out more at [www.nwcareercolleges.org](http://www.nwcareercolleges.org)

### Independent Colleges and Universities

Washington's independent colleges and universities provide another option for students pursuing a four-year degree. [www.icwashington.org/](http://www.icwashington.org/)

### Graduate and Professional Degrees

All of Washington's public four-year institutions, and some independent institutions, offer graduate-level courses leading to a master's degree. Typically, students must first earn a bachelor's degree before continuing with their education to earn an advanced degree in a specialized area. For example, some graduate students may earn a master's in business administration, or MBA. Others might continue their studies to earn a master's degree in English or history, or perhaps a master's in public administration or fine arts. The University of Washington and Washington State University also offer doctoral degrees (known as PhDs) in addition to professional degrees—including medicine, dentistry, veterinary medicine and law.

## **Military Careers**

The Armed Services offer men and women the opportunity to learn self-discipline, leadership and a wide range of technical skills and specialties that also translate to civilian jobs. All of the Armed Services provide their personnel with incentives for continuing their education both while in the military, as well as after their service time.

For those choosing to attend college first, the Reserve Officer Training Corps (ROTC) scholarship provides financial assistance for tuition and fees, books, and living expenses.

Military personnel are encouraged to continue their education. Members are eligible for programs such as the Montgomery GI Bill and tuition assistance. Individual services also offer other educational incentives, such as a loan repayment program and college assistance funds.

## **Washington National Guard Training and Benefits**

The Washington National Guard is made up of citizen soldiers who serve both the state and the nation. Most National Guard members have civilian jobs, as well as Guard careers. While serving, they are paid and receive many benefits, such as insurance, post exchange privileges, and additional training. More info at [www.washingtonguard.org](http://www.washingtonguard.org)

## **Job Corps Program**

Job Corps helps young people through academic programs, technical training, employment skills, health care and counseling. It is a national training and employment program administered by the U.S. Department of Labor. Youth entering the program must be at least 16 and not yet 25 years of age, a U.S. citizen or legal resident, meet income guidelines, and be in need of additional education and training. More info at [www.jobcorps.gov/](http://www.jobcorps.gov/)

## **Apprenticeships: Earn while you learn**

Earn a paycheck while you learn a skilled profession in fields like construction, health care, culinary arts, and many others.

With an apprenticeship, your classroom studies are combined with paid on-the-job training supervised by a professional. Much like a college education, it takes several years to become fully trained in an occupation. However, unlike college students, apprentices earn while they learn.

Apprentices receive wages that are tied to a progressively increasing scale—so with each step you take, you're able to earn more money. Once apprentices master an occupation, they receive the same wages as a professional.

Depending on the trade you train for, your paycheck can be considerable. For example, journey-level plumbers, pipefitters, and steamfitters earned average annual wages of over \$60,000 in Washington in 2012.

Apprentices are taught by experienced journey-level workers, so there is a direct connection between what you learn in the classroom, and what you do on the job. At least 144 hours of related supplemental classroom instruction is required each year during the course of a program. Programs normally provide a minimum of 1,500 to 2,000 hours paid on-the-job training, where apprentices have a chance to practice new skills while learning the occupation.

### **Who can be an apprentice?**

Entrance requirements vary by trade. In general, apprentices must:

- Be 16 years or older, though hazardous occupations require you be at least 18. Over 80 percent of apprentices are over 21.
- Have access to reliable transportation.
- Be drug free.
- Commit to one to five years of paid on-the-job training and related supplemental classroom instruction (often done on the apprentice's own time).
- Be interested in a career, not just a job.

### **What kind of work do apprentices do?**

While construction and building trades are perhaps the most well-known apprenticeships, there are apprenticeships in health care, manufacturing, food preparation and public safety. Explore your options and learn more about apprenticeship at: [www.exploreapprenticeship.wa.gov](http://www.exploreapprenticeship.wa.gov)

### **What's available in your area?**

Learn all about registered apprenticeship programs through the state Department of Labor & Industries website: [www.lni.wa.gov/tradeslicensing/apprenticeship/](http://www.lni.wa.gov/tradeslicensing/apprenticeship/)

# Getting College Credit for What You Have Already Learned

College credit doesn't always have to be earned in the classroom. You may possess knowledge, life skills, work experience or military training that can be translated into valuable college credit.

## Prior Learning Assessments

Many colleges and universities make it possible for students to gain credit in some of their courses, without enrolling in the classes, by taking an exam that allows them to demonstrate what they know. All community and technical colleges and all four-year college and universities (public and private) have a process for assessing a student's prior learning for possible college credit. Assessments can be done through standardized tests such as the College-Level Examination Program (CLEP) and the Defense Activity for Non-Traditional Education Support (DANTES).

You also might be able to gain course credit for certifications you have earned in the past or military work experience. Some colleges and universities have created "crosswalks" between this prior learning experience and some of their courses.

## What will it Cost?

Each college and university sets their own rate for granting Prior Learning credits based on their costs associated with the assessment. Generally, it should be less than the tuition and books associated with taking the course for credit.

## Learn More

If you think you might be eligible for prior learning credit, contact the college or university of your choice and ask for the Prior Learning Assessment (PLA) point of contact.

## High School Credit for College Credit

If you participated in Advanced Placement classes, Running Start, Tech Prep or a Program of Study, you may be able to get college credit for this work. Credit policies vary by institution so be sure to verify your credit before counting on it.

# Paying for Your Education

Just as there are many career paths, there are many ways to pay for your education and training. In some cases, it may even be free. For example, if you pursue an apprenticeship or military career your education expenses will either be covered or built into your salary, as these choices involve working and learning.

College and other types of advanced education and training can be costly. Still, it may be more affordable than you think. You may be eligible for grants and scholarships that pay for tuition, books and other supplies. Or you may qualify for low-interest loans that you pay back over time, land a work study job, or receive a tax credit that puts you on the path to earning your degree.

## Start with the FAFSA

The Free Application for Federal Student Aid (FAFSA) is the first step in the financial aid process. Use it to apply for federal student financial aid, such as the Pell Grant, student loans, and college work-study. In addition, most states and schools use FAFSA information to award their financial aid. Regardless of your income or family's income, the FAFSA is a good way to evaluate your ability to pay for college and receive financial aid.

The U.S. Department of Education, which processes the FAFSA, encourages you to pay close attention to the FAFSA deadline. Check out [www.fafsa.ed.gov](http://www.fafsa.ed.gov).

Next, check with your high school guidance counselor, or financial aid administrator at your school, about state and school sources of student aid. The U.S. Department of Education also offers the following tips:

### Apply Early!

State and school deadlines vary and tend to be early. Find out their exact deadline dates. The U.S. Department of Education will process your FAFSA if it is received on or before the deadline.

### Complete Your Tax Return!

You (and your parents if you are a dependent student) should complete your tax return before filling out your FAFSA. This will make completing the FAFSA easier. If you have not filed your tax return yet, you can still submit your FAFSA, but you must provide correct income and tax data once you have filed.

### Save Time: File Electronically!

Complete and submit your FAFSA online. It is the fastest and most accurate way to apply for student aid.

## Grants and scholarships help you take the next step

Grants and scholarships help you pay for your education without the hassle and worry of paying them back. Some are based on need, others on academic merit, ethnic background, and other factors.

- View Washington scholarship programs at [www.thewashboard.org](http://www.thewashboard.org).
- Or click the Pay for School tab on [CareerBridge.wa.gov](http://CareerBridge.wa.gov).

## Pell Grants

The federal government offers Pell Grants and other grants you'll want to explore. You may receive about \$5,550 in Pell money for a year of school depending on your income level and other factors. [www2.ed.gov/programs/fpg/index.html](http://www2.ed.gov/programs/fpg/index.html)

Other options for Washington residents:

### **State Need Grant**

The State Need Grant program helps the state's lowest-income undergraduate students pursue degrees, hone skills, or retrain for new careers. Students can use the grants at eligible institutions (public two- and four-year colleges and universities, and many accredited independent colleges, universities, and career schools) in Washington. Read more at [www.wsac.wa.gov/PayingForCollege/StateAid/NeedGrant](http://www.wsac.wa.gov/PayingForCollege/StateAid/NeedGrant)

### **Opportunity Grant**

These grants are available at Washington's 34 community and technical colleges and will help pay for up to 45 credits for students who meet income guidelines and enroll in programs of study in high-demand occupations such as health care, automotive technology, accounting, early childhood education and many others. Get details at: [www.sbctc.ctc.edu/college/s\\_opportunitygrants.aspx](http://www.sbctc.ctc.edu/college/s_opportunitygrants.aspx)

### **Work Study**

The State Work Study program helps students from low- and middle-income families earn money for college while gaining experience whenever possible in jobs related to their career goals. [www.wsac.wa.gov/PayingForCollege/StateAid/WorkStudy](http://www.wsac.wa.gov/PayingForCollege/StateAid/WorkStudy)

### **College Bound Scholarship**

Promises tuition (at public institution rates) and a small book allowance for income-eligible students who sign up in the 7th or 8th grade, work hard in school, stay out of legal trouble, and successfully apply to a higher education institution when they graduate. Students may sign up in the 7th or 8th grade, and need only apply once. [www.wsac.wa.gov/PreparingForCollege/CollegeBound](http://www.wsac.wa.gov/PreparingForCollege/CollegeBound)

## Preparing for a Job

Your education and work history are important in landing a job. But so is your attitude, your ability to solve problems, your attention to details and many other aspects of your personality and skills that make you a good worker. Yes, you need to have certain skills and experience, but employers also are looking for other qualities that contribute to business success, such as:

- Getting to work on time.
- Dressing appropriately.
- Being flexible.
- Learning new skills quickly.
- Working well with others.
- Setting priorities.
- Enthusiasm for the job.

It's up to you to showcase these interpersonal and workplace skills when you're at an interview. In many cases, it's these "soft skills" that will make the difference when a hiring manager decides who to call to offer a job. Ultimately, these same skills will also help ensure you *keep* the job and thrive in it.

### Finding job opportunities

Your best resource for a new job is also your best reference—those who know you best. Talk to your friends, your family and even your neighbor across the street. You never know where your networking will lead you—and who might know about a potential job opening or have a well-positioned friend. So spread the word about your job search. If you're using social media such as Facebook or LinkedIn, you can let those in your network know you're looking. An excellent source for job openings and career assistance is WorkSource, the state's one-stop network of career centers. Check out [www.go2worksource.com](http://www.go2worksource.com) for a searchable listing of jobs near you.

### Applying for the job

Before you apply for a job opening, do some research so you can craft a compelling resume and cover letter.

#### Research the company

Learn as much as you can about the company or organization that is hiring. Go online to get details on what they do, who they are, and who they're hiring. Sometimes you'll find out what a company values. Perhaps it's creativity and a culture of innovation, or maybe hard work, and long hours. You'll want to know a bit about the company and its culture before you complete your application, resume and cover letter.

#### Recipe for a winning resume

Your resume is all about you—and your education, work experience and job skills. However, it's not a laundry list of *everything* you've done. Instead, it should highlight your strengths and your accomplishments, and inform potential employers of credentials, internships, degrees and diplomas that set you apart from the competition.

A resume, in other words, needs to show employers what you can do for them. So, for example, if you've worked in a coffee shop you'll do well to focus on what you've learned besides making coffee, such as: customer service, prioritizing competing demands, thriving in a fast-paced work environment. By highlighting specific talents that are relevant to the job, your resume is telling the employer how much you value these skills.

There are many attractive ways to format your resume. However, all winning resumes are concise, accurate and tailored to the specific job. You should create a basic resume that lists all your experience and then refocus that resume to suit the job you are applying for based on the research you've done on the company and the position you seek.

Your resume should include the following sections:

- **Heading:** Your name and contact information. Do NOT include personal information such as your social security number, age or whether you are married or single.
- **Education:** List your education, starting with highest level. Also include job-related training or professional certifications you have completed. High school information isn't needed unless that is your highest level of education. If so, consider highlighting relevant courses you've taken post-high school to reflect your additional education.
- **Employment Experience:** Beginning with your most current experience, list your job history. Include the dates of employment, job title, employer's name and location and the specific duties of the job. Again, be sure your resume identifies the skills and experience you have that are important to the position you hope to land.
- **Special Skills and Abilities:** What makes you a particular asset as an employee?
- **Optional:** Community and volunteer service, military service and professional affiliations can be part of your resume.
- **References:** Unless specifically requested, references are not necessary for a resume. But be prepared to provide professional, academic and personal references.

### General rules about resumes

- Be specific: Focus on what is important to the job you are seeking.
- Be honest: Do not overstate your achievements or accomplishments.
- Be concise: Keep the length to one or two pages.
- Proofread: Ask someone to check for spelling and grammatical errors.
- Use high quality paper: Show you take the job seriously and are professional.
- Create a PDF if you are emailing your resume to an employer.

Get more information in the Career Resources area of [CareerBridge.wa.gov](http://CareerBridge.wa.gov).

## Cover letters create interest

Every resume you send needs an accompanying cover letter (or email) that speaks to the specific company and position you are applying for. The cover letter should make it easy for the reader to identify why your skills, abilities and experiences make this the ideal job for you. The letter should convey a positive attitude that will entice the employer to want to interview you!

- **The opening:** State the position you're applying for and how you learned about it.
- **The body:** Highlight your main qualifications, skills, abilities and how these relate to the position. You can refer to your resume, but do NOT repeat its contents.
- **The closing:** Demonstrates an intention to communicate in the near future, such as "I look forward to talking with you soon."

## General cover letter guidelines

- Address the letter to a specific person rather than Dear Sir or Dear Personnel Manager. Make a phone call or go online to learn who to contact.
- Print the letter using high quality paper (if you are mailing it rather than submitting online). Keep this letter to one page.
- Use simple, direct language. Check spelling, punctuation, grammar, and sentence structure.
- Ask someone to proofread it before you send.
- Explain what makes you different from other applicants. Spell out how your skills, abilities and experience make you a good fit for the job.
- Keep the letter upbeat and positive. Don't complain about previous employers.
- Personally sign your letter.

---

## *Common interview questions*

- Where did you hear about us?
  - What is your background?
  - What is or was your favorite subject in school? Your worst?
  - Why do you want to work here?
  - What do you see yourself doing in five years?
  - What kind of contribution can you make to our company?
  - What are your strengths...and weaknesses?
  - When can you start?
  - What questions do you have for us?
-

## The Job Interview

Congratulations, you've scored an interview! It's normal to feel nervous before sitting down with an employer. Good preparation will make you feel more at ease.

Here are some preparation tips:

Step up your efforts to learn about your employer. While you might not be expected to know everything about your potential job, you will leave a positive impression if you exhibit knowledge about the organization and are able to ask good questions at the interview about the job.

Be ready to talk about yourself, your experiences, your strengths and your goals. You will need to be able to explain how you will make a difference to their organization.

Think about the questions you might get and practice your answers.

Be prepared to look sharp – Ensure your hair is groomed and that you are wearing appropriate clothes and shoes that are clean and in good condition.

## Interview Do's and Don'ts

---

### DO

Dress appropriately – Be clean and well-groomed.  
Be prompt – There is no excuse for being late!  
Learn the interviewer's name and use it.  
Shake hands firmly.  
Be enthusiastic, positive and upbeat.  
Maintain good eye contact and speak clearly.  
Take time to think about your answers.  
Ask when you may call to learn about a hiring decision.  
Thank the interviewer for his or her time.  
Follow up the interview with a brief thank you note.

---

### DON'T

Take anyone with you - Go alone.  
Chew gum.  
Apologize for your lack of experience.  
Plead for a job or say, "I'll take anything."  
Discuss personal, home, or money problems.  
Criticize former employers or coworkers.  
Hang around after the interview.

---

# Resource Section

## Assistance Available for those with a Disability

If you have a disability that makes it difficult for you to find a job or keep one, the state's Division of Vocational Rehabilitation (DVR) can help. DVR provides employment services and counseling to individuals with disabilities who want to work but experience barriers to work because of a physical, sensory, and/or mental disability.

A DVR counselor works with each person to develop a customized plan of services designed to help them reach their employment goal. DVR assistance includes:

- Counseling and Guidance.
- Assessment Services.
- Independent Living Services.
- Assistive Technology Services.
- Training and Education.
- Job-Related Services.

In addition, vocational rehabilitation services may include:

- Training for many occupations.
- Tuition, books and equipment costs for training or starting a new job.
- Transportation expenses during a rehabilitation program.
- Living allowances during the program.
- Placement in a suitable job.
- Follow-up study of an individual's progress on the job.

For more information, contact DVR at (360) 438-8000 or 1-800-637-5627, or [www.dshs.wa.gov/dvr](http://www.dshs.wa.gov/dvr).

## Veteran's Services

If you served on active duty and were discharged or released from duty with other than a dishonorable discharge you may be eligible for priority services at your local WorkSource office. Some spouses, such as those whose military sponsor has a 100 percent disability rating from the Veterans Administration, or who died with a 100 percent rating or from a service connected disability, or whose sponsor is a MIA/POW are also eligible for priority service. For additional information go to [www.esd.wa.gov/findajob/specialprograms/veterans-services.php](http://www.esd.wa.gov/findajob/specialprograms/veterans-services.php).

For veterans struggling with making the transition into a new career a Local Veterans Employment Representative (LVER) is available to help. This program, run by the state's Employment Security Department, works with other service providers to promote veterans as job seekers with highly marketable skills and experience. LVER Staff are also located at local WorkSource one-stop career centers and conduct a variety of job search assistance workshops and provides job development and referrals for veterans.

For more information: (360) 486-5944 or [www.esd.wa.gov/findajob/specialprograms/veterans-services.php](http://www.esd.wa.gov/findajob/specialprograms/veterans-services.php).

## **Disabled veterans**

If you are a disabled veteran you may qualify for the state's Disabled Veterans' Outreach Program, run by the Employment Security Department. Specialists provide intensive services to veterans with special employment and training needs. Staff target services to "Special Disabled" veterans (veterans with a 30 percent rated disability by the Veterans Administration), disabled veterans, economically or educationally disadvantaged veterans and veterans with other barriers to employment, especially homeless veterans.

Phone (360) 407-1359 or go to [www.esd.wa.gov/findajob/specialprograms/veterans-services.php](http://www.esd.wa.gov/findajob/specialprograms/veterans-services.php).

## **More information on veterans services**

For general information on veterans programs contact the state's Department of Veterans Affairs at (360) 725-2200 or go to [www.dva.wa.gov/index.html](http://www.dva.wa.gov/index.html).

## **WorkSource Centers**

Whether you need help finding a job, advice on training for a new career or assistance in writing a resume, your local WorkSource Center can help.

WorkSource is a free network of one-stop career centers that brings together business, labor, and a variety of state agencies to provide Washington residents with employment, education, and training.

Participating agencies include: the Employment Security Department, Workforce Development Councils, the state's 34 community and technical colleges, Department of Social and Health Services, Workforce Training and Education Coordinating Board, Office of Superintendent of Public Instruction, and the Governor's Office.

You can also talk to WorkSource staff to help find nonprofit, community-based organizations that meet your specific needs. For example, Community Action Councils in many counties can help with everything from utility bills to rent assistance.

For the nearest WorkSource locations, call 1-877-872-5627, or visit [www.go2WorkSource.com](http://www.go2WorkSource.com).
